This tablet is suitable for all applications where you need high performance. Be it media streaming or video surveillance, with 4GB Ram and the RK3399 you are well advised.

The WLAN with 5GHz ensures the best transmission speed even without a cable connection.

The tablet has a Touch to Wake function and the display can thus be woken up from sleep. The display can also be turned off with a double-click via a DoubleTap On/Off app from the Playstore. This function is helpful when the power button is no longer easily accessible due to wall mounting.
